

Exploring Jail Incarceration Trends in Fulton County

In April 2019, New York State passed historic bail reforms that went into effect in January 2020. One major policy goal of the reforms was to limit the use of pretrial detention for people unable to pay money bail. The statewide jail population decreased more than 18 percent in the three months leading to implementation, and hit its lowest point at 11,089 in July 2020, in the midst of the COVID-19 pandemic.¹ Since that time, statewide jail population numbers have gradually increased, reaching beyond pre-pandemic levels.¹

Little research has been conducted to examine the changes in pretrial incarceration that have occurred since the reforms. This fact sheet illustrates these changes on a county level using jail administrative data obtained through Freedom of Information Law (FOIL) requests.

Jail incarceration at a glance

On an average day in May 2022, 79 people were incarcerated in Fulton County (fig 2). The Fulton County jail population decreased by 2 percent from May 2019 to May 2022.

Jail incarceration rate in Fulton vs. non-NYC counties

Rate calculated per 100,000 residents

FIGURE 2

Fulton jail monthly snapshot

May 2019	May 2022	
81	79	Average daily population
68%	70%	Percent pretrial
18%	10%	Percent Black
16%	11%	Percent female
86	33	Total admissions
60	76	Median length of stay

Changes in the racial makeup of the jail population in Fulton County

Racial disparities in Fulton County jail population numbers have decreased since bail reform. In the second quarter of 2019, Black people made up 3 percent of the Fulton County population, but an average of 19 percent of the jail population. In the second quarter of 2022, an average of 10 percent of the jail population was Black. That quarter, incarceration rates for Black people in Fulton were over 3 times those of non-Hispanic white people.

Changes in the charge profile of jail incarceration in Fulton County

The goal of the 2020 bail reform was, in part, to reduce the number of people held in jail pretrial. This effort largely has been successful for low-level offenses (fig 5). The number of people admitted to jail for drug, property, vehicular, and violent crimes in Fulton County fell between 2019 and 2021² (fig 4). Median length of stays across all charges in Fulton County jail rose from 10 to 48 days between the second quarters of 2019 and 2022 (fig 6).

Average share of Fulton jail population by charge severity³

Q2 2019	Q2 2022	
16% (12)	26% (19)	Violent felonies
54% (40)	47% (34)	Nonviolent felonies
30% (22)	26% (19)	Misdemeanors

FIGURE 6

Median days spent in jail in Fulton County by charge severity³

Q2 2019	Q2 2022	
123 days	58 days	Violent felonies
97 days	60 days	Nonviolent felonies
4 days	34 days	Misdemeanors

Changes in the use of bail in Fulton County

Bail reform eliminated the use of cash bail for most misdemeanors in New York, but bail is still regularly set at the discretion of judges for a wide range of charges. Despite the reduction in the use of bail, racial disparities remain in bail setting throughout New York State.⁴

The median cash bail⁴ set for people across all charges held in Fulton County jail in the second quarter of 2022 was \$1,500, up from \$1,000 in 2019 (fig 7).
