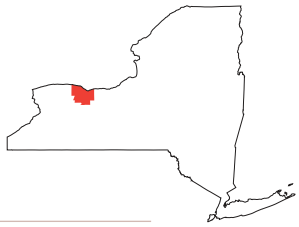
Exploring Jail Incarceration Trends in

Monroe County



In April 2019, New York State passed historic bail reforms that went into effect in January 2020. One major policy goal of the reforms was to limit the use of pretrial detention for people unable to pay money bail. The statewide jail population decreased more than 18 percent in the three months leading to implementation, and hit its lowest point at 11,089 in July 2020, in the midst of the COVID-19 pandemic.[1] Since that time, statewide jail population numbers have gradually increased, reaching beyond pre-pandemic levels.[1]

Little research has been conducted to examine the changes in pretrial incarceration that have occurred since the reforms. This fact sheet illustrates these changes on a county level using jail administrative data obtained through Freedom of Information Law (FOIL) requests.

Jail incarceration at a glance

On an average day in May 2022, 757 people were incarcerated in Monroe County (fig 2). The Monroe County jail population decreased by 28 percent from May 2019 to May 2022.

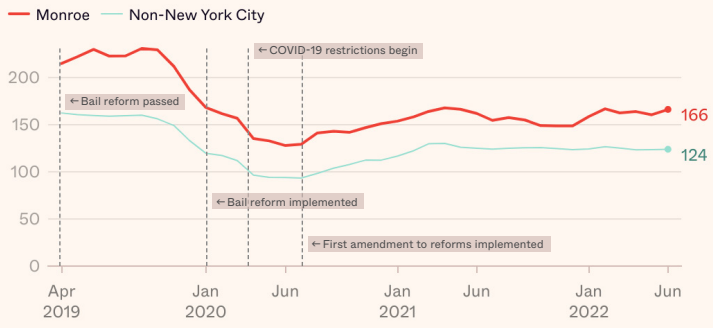

FIGURE 2

Monroe jail monthly snapshot

May 2019	May 2022	
1056	**757**	Average daily population
55%	**68%**	Percent pretrial
61%	**65%**	Percent Black
12%	**8%**	Percent female
850	**366**	Total admissions
41	**111**	Median length of stay

Changes in the racial makeup of the jail population in Monroe County

Racial disparities in Monroe County jail population numbers have increased since bail reform. In the second quarter of 2019, Black people made up 17 percent of the Monroe County population, but an average of 62 percent of the jail population. In the second quarter of 2022, an average of 65 percent of the jail population was Black. That quarter, incarceration rates for Black people in Monroe were over 8 times those of non-Hispanic white people.

Changes in the charge profile of jail incarceration in Monroe County

The goal of the 2020 bail reform was, in part, to reduce the number of people held in jail pretrial. This effort largely has been successful for low-level offenses (fig 5). The number of people admitted to jail for drug, property, vehicular, and violent crimes in Monroe County fell between 2019 and 2021[2] (fig 4). Median length of stays across all charges in Monroe County jail rose from 28 to 36 days between the second quarters of 2019 and 2022 (fig 6).

Q2 2019	Q2 2022	
120 days	**92 days**	Violent felonies
32 days	**21 days**	Nonviolent felonies
16 days	**12 days**	Misdemeanors

Changes in the use of bail in Monroe County

Bail reform eliminated the use of cash bail for most misdemeanors in New York, but bail is still regularly set at the discretion of judges for a wide range of charges. Despite the reduction in the use of bail, racial disparities remain in bail setting throughout New York State.[4]

The median cash bail[4] set for people across all charges held in Monroe County jail in the second quarter of 2022 was $2,000, up from $1,000 in 2019 (fig 7).
